

WFP and Woolworths Namibia shared a meal with learners of Otjomuise Primary School

Over the past 72 years, October 16 has been known across the globe as the World Food Day. This year Woolworths Namibia and the World Food Programme (WFP) took this day as an opportunity to prepare and share a meal with learners of Otjomuise Primary School.

Additionally, WFP and Woolworths also donated two – three legged pots and eating plates to be used for feeding the beneficiaries of the Namibian School Feeding Programme at the school.

It was a joyful day for the learners at Otjomuise Primary School as they enjoyed a nutritious meal prepared by staff from Woolworths and WFP. This initiative from Woolworths Namibia and WFP helps in raising worldwide awareness and action for those who suffer from hunger and for the need to ensure food security and nutritious diets for all.

World Food Day gives a chance for the world to show its commitment to Sustainable Development Goal (SDG) 2, which aims at achieving Zero Hunger by 2030. World Food day allows us to strengthen international and national solidarity in the struggle against hunger, malnutrition and poverty and draw attention to achievements in food and agricultural development. WFP hopes to continue these public private partnerships on food security and nutrition issues in the future for the benefit of the citizens of Namibia.
